## DEVELOP, IMPROVE AND SUSTAIN HIGH-QUALITY TEACHING

Take a step forward, and learn how to lead in international schools, given the growth in our sector and the ever-increasing need for quality leaders. Learn how to develop, improve, and sustain high-quality teaching within a team and identify strategies to help close gaps in achievement. The Middle Leader Certificate programme supports the development of leadership and management skills needed by current and aspiring middle leaders in order to move schools forward so they can thrive.

## LEAD EFFECTIVELY

What does effective leadership in schools look like, and how can I become a leader who facilitates adult and student learning?

At ECIS we believe that effective leadership in schools results from an intersection of the following four areas, which inform all our middle leader courses:

**Influence** - you are guided by a moral commitment to do the right thing

**Motivation** - you inspire others to achieve more than they thought possible

**Stimulation** - you step back and challenge others to work out solutions and see things differently

**Consideration** - you empathise, listen, and care for others

## COURSES

\*Each course can be taken as a stand alone course; however, to qualify for the Middle Leader Certificate, four courses are required to be completed, one of which must be the 'Culture of Leadership'.
