

Where Education and Entertainment Meet

Inspire and Educate your Students through the Power of Film

Movieland Academy is the world's first and only teaching tool to offer a streaming platform of cinematic content that gives teachers an educationally-backed way to teach through entertainment. Providing ready-to-use, educational-standard lesson plans for K-12, Movieland Academy is the approved way to revive your classroom.

Offering over 1000 licensed films from major Hollywood studios, from classics to new releases, combined with more than 400 classroom lesson kits, developed by pedagogical experts at **Journeys in Film**.

All movies and lesson kits are curriculum-aligned, and chosen specifically to help boost today's school lessons into the 21st century.

Movieland Academy is also the perfect solution to enhance virtual lessons. Using dynamic, dramatized, inspiring, and popular content to help keep students engaged and motivated.

74%

of teachers believe bringing audiovisuals into the classroom will result in increased lesson engagement and awareness.

81%

of students using Movieland Academy say they remember lessons better.

100%

of movies and lessons kits are already organised and searchable by class and subject, from History to Biology, for ages 6 to 18.

Journeys in Film educates the next generation to be globally competent and socially active by amplifying the storytelling power of film for teaching and learning.

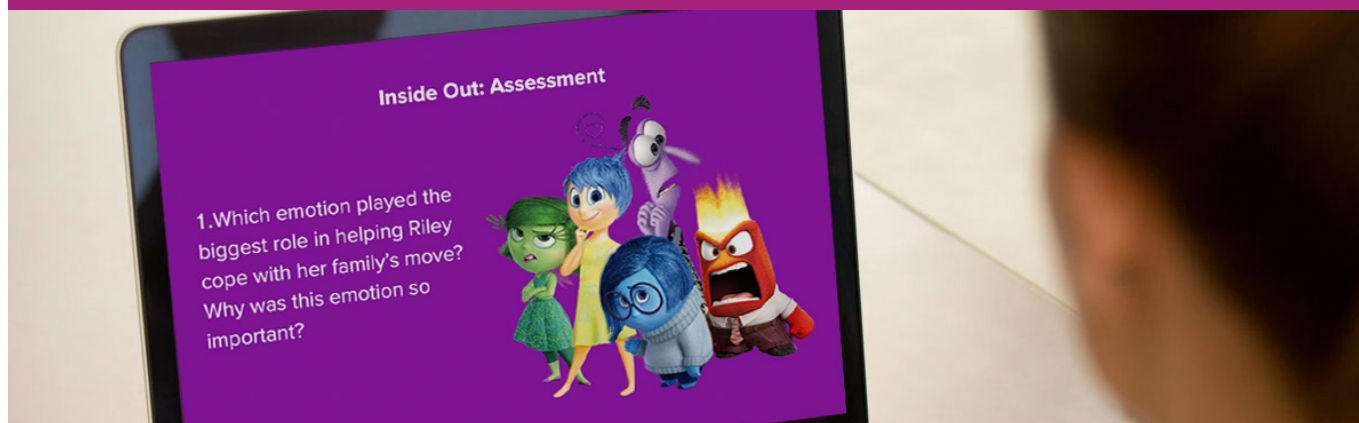

Teach about D Day with Steven Spielberg's "Saving Private Ryan"

Discuss racism with Oscar winners "The Green Book" or "Hidden Figures"

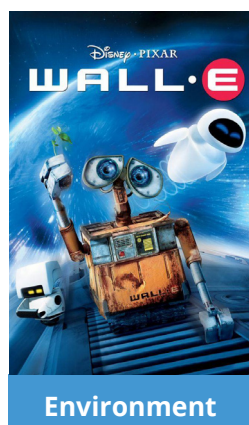

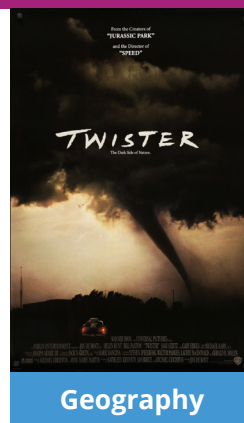

Show Disney's "Inside Out" and discuss emotions and self esteem

Over 400 Lesson plans

Over 1000 licensed films from major Hollywood studios

Join the 4,000 schools and 2 million students already enjoying new ways of learning.
Direct streaming, no downloading. Revive your classroom with one click.
